How to change classes for Primary Parent Planner on an Android Device
Open the app on your Android device which will take you to the home page. Press the Students tab.

Next Press on the student name – in this case ‘John’.
Next press the ‘Remove Student’ tab.

Now press add student to add a student name and select the classes/events for the new year.
Type in the name of the student; choose the school, classes/events as per the original set up previously.
